PROFESSIONAL SUMMARY

Cybersecurity graduate student pursuing an M.S. in Information Assurance with foundational experience in security operations, Security Information and Event Management (SIEM) concepts, Active Directory, Linux security, networking, vulnerability assessment, and cloud and DevOps practices. Hands-on background in Python scripting, continuous integration and continuous deployment (CI/CD), technical troubleshooting, event operations, and documentation. CompTIA Security+ and eJPT v2 certified; seeking a cybersecurity internship, an entry-level security operations role, or an entry-level cloud and IT help desk role.

TECHNICAL SKILLS

Cybersecurity and Security Operations: Security operations, Security Information and Event Management (SIEM) concepts, Active Directory management, Linux security, vulnerability assessment, incident response readiness

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, SSH, FTP, VPN, Server Message Block (SMB)

Security Tools and Labs: Nmap, Hack The Box, picoCTF

Programming and Web: Python scripting, JavaScript, React, Next.js, Supabase, Firebase

Cloud, DevOps, and Systems: AWS, GitHub, continuous integration and continuous deployment (CI/CD), Linux, Windows Server, network troubleshooting, diagnostic remediation, AI and agentic automation

CERTIFICATIONS

- CompTIA Security+ | 2025
- eJPT v2 | 2026
- AWS Solutions Architect Associate | In progress, 2026

WORK EXPERIENCE

Lead Student Ambassador | CxO Cybersecurity Forum | Ypsilanti, MI | April 2026

- Coordinated timing and logistics across audiovisual teams, catering staff, and student ambassadors to maintain a reliable event schedule and smooth handoffs.
- Supported cybersecurity vendors and sponsors with physical and technical setup of informational booths, presentation systems, and event materials.
- Maintained coordination across concurrent activities, contributing to synchronized presentations, breaks, and event transitions.

Ticket Office Associate | George Gervin GameAbove Center Ticket Office | Ypsilanti, MI | Present

- Provide timely support to students and patrons by resolving ticketing questions and directing inquiries to the appropriate process.
- Verify, sell, and issue tickets for graduation ceremonies, concerts, and athletic events while following established operating procedures.
- Support high-volume event workflows through accurate transactions, customer communication, and dependable front-line service.

Event and AV Technician | Eastern Michigan University Student Center | Ypsilanti, MI | Present

- Configure event spaces and audiovisual equipment for a range of programs, adapting room layouts and technical setups to event requirements.
- Troubleshoot customer-facing technical and audiovisual issues during live events, communicating clearly with non-technical users under time pressure.
- Coordinate and lead building evacuations during drills and live disruptions, following safety procedures and maintaining calm, organized communication.

Student Worker | Eastern Michigan University Facilities | Ypsilanti, MI | June 2026 - September 2026

- Prepared sports facilities for programs serving different sports and age groups, completing setup tasks accurately and on schedule.
- Assisted facility renters with organizing games and events while responding to operational questions and changing requirements.
- Protected and tracked facility assets by maintaining equipment, securing fields and buildings, locking doors, and supporting inventory activities.

Software Engineering Intern | Tenece | Enugu, Nigeria | January 2023 - July 2023

- Built and deployed responsive web applications for enterprise clients using modern web development frameworks and structured implementation practices.
- Led a cross-functional intern team developing Genesys, a platform designed to train young developers in industry-standard software practices.
- Architected and managed CI/CD pipelines for the intern development team, streamlining deployments and reinforcing code-quality checks.
- Assigned development tasks, tracked progress, documented project workflows, and served as the primary liaison between interns and senior supervisors.

LEADERSHIP AND COMMUNITY INVOLVEMENT

Board Member | Friends of the Ypsilanti District Library Bookshop | Ypsilanti, MI | Present

EDUCATION

M.S. Cybersecurity, Information Assurance | Eastern Michigan University | Ypsilanti, MI | Expected December 2027

- Relevant coursework: Offensive Security, Defensive Security, Cloud Fundamentals

B.Sc. Software Engineering | Babcock University | Lagos, Nigeria | August 2024
